

Student Assistant Needed

Starting ASAP/May 2017

Tasks:

- Create Bootstrap based web platform as well as HTML templates allowing visualisation and communication of research results
- Build interface to allow integration and execution of existing Jupyter notebooks as well as transfer of time-series data

Requirements:

- Solid experience web development
- Knowledge of **Python, HTML, JS**
- Experience with **Flask, Bootstrap** and **D3.js** is advantageous
- Good command of English is a must
- Student status at either ETH or UZH

We offer:

- 15+ hours/week (more hours possible during term breaks, less hours possible during exam sessions)
- Salary according to ETH rules (28 CHF/hour)
- Employment for approx. two months (with possibility of extension)

Candidates are invited to send their resume and a short motivation letter in English as PDF files, to <https://www.sg.ethz.ch/open-positions/>
For general inquiries, please contact **Prof. Frank Schweitzer** (fschweitzer@ethz.ch).
